## Allowable Subject Matter

Claims 1 – 43 are allowed. The following is a statement of reasons for such an indication.

The prior art of record fail to teach resolving a plurality of vehicle torque requests from a plurality of torque requesting elements, comprising, among other limitations, resolving wheel level torque requests, translating wheel level torque requests through each of at least one transmission to at least one transmission input level, resolving translated wheel level torque requests together with transmission input level torque requests, and generating commands for the at least one torque producing device based upon the resolved torque requests, whereby at least one of the transmission input level base requests and the transmission input level fast requests is used to control a transmission level torque producing device.

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yonel Beaulieu whose telephone number is (703) 305-4072. The examiner can normally be reached on M-R, from 0900-1600.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas BLACK can be reached on (703) 305-8233. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Art Unit: 3661

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
